

Adult Medicaid Policies

1. Medicaid mandatory co-pay of \$3.40 (cash) due at beginning of every visit.

2. Appointment Policy: If patient does not show up for a scheduled appointment for any reason, the patient can only be seen on an emergency basis in the future (same day call-in).

3. Benefits: Medicaid provides a set benefit of \$1000/year (renews in July of each year) to cover basic dental needs. If any procedures are needed beyond this basic scope of coverage, these costs will be the responsibility of the patient at time of service.

**All new Medicaid patients will need to be seen and evaluated by the doctor prior to scheduling any cleaning or services to determine specific dental needs. Please be aware that Medicaid only provides coverage for a very limited number of services.
